# S.SAYED FARID

+91 7540027044 sayedfraidsayedfarid@gmail.com PONDICHERRY,INDIA

## SUMMARY:

Aspiring Artificial Intelligence and Data Science student at B. S. Abdur Rahman Crescent Institute of Science and Technology with a strong foundation in programming and problem-solving. Skilled in Python, Java, SQL, HTML, and Flask, with the ability to develop basic software applications and data-driven solutions. Possesses strong analytical thinking and communication skills. Eager to start a career in AI, Data Science, or software development and contribute effectively in a dynamic IT environment.

## EDUCATION

**Christ college of engineering and technology, pondicherry** **2021 - 2025**
Bachelor of Technology in Computer Science and Engineering

**B. S. Abdur Rahman Crescent Institute of Science and Technology.** **2025 - present**
Master of Technology Artificial Intelligence & Data Science

## PROFESSIONAL EXPERIENCE

**LENOVO Intern**

- software experience
  Worked on software troubleshooting and OS-level testing
  Evaluated system performance and functionality
  Presented technical findings in team discussions

## PROJECT :

**Real-Time Hybrid IDS/IPS System**

- Technologies: Python ,TensorFlow ,Flask ,SQLite
- Designed and deployed a production-level intrusion detection system using CNN+BiLSTM+Attention achieving 95% accuracy, with zero-day detection, SHAP explainability, live web dashboard, and automated PDF reporting.

**Customer Support Chatbot**

- Technologies: Python, Pinecone, LangChain, OpenAI API
- Created an AI chatbot that retrieves answers from company FAQs and documents using RAG.
  Improved response accuracy by combining semantic search with LLM-generated answers.

## TECHNICAL SKILLS

- Programming: Python, Java, SQL
- Application & Backend: Flask, FastAPI, REST APIs
- Databases: PostgreSQL, MySQL
- Operating Systems: Windows, Linux
- Security: Cybersecurity Fundamentals, Security Risk Assessment, Vulnerability Analysis, Security Monitoring, Audit Fundamentals, Access Control, RBAC
- Troubleshooting: Application Troubleshooting, Root Cause Analysis, Incident Analysis, Log Analysis, System Monitoring
- Tools: Git, GitHub, VS Code, Docker
- Data & Analytics: Pandas, NumPy, Power BI
  AI/ML: Scikit-learn, TensorFlow, PyTorch

## ADDITIONAL INFORMATION

- **Languages:** English, Tamil, Urudhu
- **Certifications:** Python course in ozone computer center
