S. SAYED FARID

AI & DATA ENGINEERING ENTHUSIAST

sayedfraidsayedfarid@gmail.com | +91 7540027044 | Pondicherry, India
Portfolio: kingghost75409-coder.github.io/Sayed-Farid123.github.io | GitHub: github.com/kingghost75409-coder | LinkedIn: linkedin.com/in/sayed-farid-0a2574290

PROFESSIONAL OBJECTIVE

AI and Data Engineering-focused M.Tech student with hands-on experience building full-stack, AI/ML and data-driven systems. Completed internships at Sify Technologies (Full Stack and AI/ML Developer) and Lenovo. Skilled in Python, FastAPI, React and TypeScript, with project experience in RAG and LLM assistants, computer vision, deep-learning intrusion detection and data pipelines. Seeking AI, data science or software engineering roles.

TECHNICAL SKILLS

- Programming & Backend: Python, Java, SQL, JavaScript, TypeScript, FastAPI, Flask, React, REST APIs, WebSockets, SQLAlchemy, JWT
- AI / ML: Machine Learning, Deep Learning, NLP, Scikit-learn, TensorFlow, PyTorch, YOLO, OpenCV
- LLM & RAG: LangChain, Pinecone, OpenAI API, OpenRouter, Multi-agent Systems
- Data Engineering & Analytics: ETL Pipelines, Apache Airflow, Snowflake, AWS (certified coursework), Apache Spark (basic), Hadoop (basic), PostgreSQL, MySQL, SQLite, Pandas, NumPy, Power BI
- Security & Troubleshooting: Cybersecurity Fundamentals, Vulnerability Analysis, Security Monitoring, Access Control (RBAC), Root Cause Analysis, Log Analysis, System Monitoring
- Tools & OS: Git, GitHub, VS Code, Docker, Linux, Windows

PROFESSIONAL EXPERIENCE & PROJECTS

Full Stack Developer & AI/ML Developer Intern
Sify Technologies | internship

- *Built the full stack of FOH Enterprise, an AI-powered restaurant operations platform, using Python, FastAPI, React, TypeScript, SQLAlchemy and WebSockets, with JWT authentication and Pydantic validation.*
- *Developed the AI/ML components: a YOLO11 and OpenCV computer vision pipeline for table occupancy and cleanliness monitoring, a RAG knowledge layer for menus and SOPs, and an OpenRouter-based AI operations assistant concept.*
- *Implemented a database concurrency strategy with SQLAlchemy and SQLite Write-Ahead Logging (WAL), and designed a Digital Twin architecture for historical analysis and what-if simulations.*

Software Intern
Lenovo | Internship

- *Worked on software troubleshooting and OS-level testing.*
- *Evaluated system performance and functionality, and presented technical findings in team discussions.*

FOH Enterprise – AI-Powered Restaurant Operations Management & Digital Twin Platform
Python, FastAPI, React, TypeScript, SQLAlchemy, SQLite (WAL), WebSockets, YOLO11, OpenCV, OpenRouter, RAG, JWT, Pydantic

- *Developed an enterprise restaurant management platform integrating table management, reservations, orders, KDS and billing.*
- *Implemented real-time table tracking and workflow synchronization using WebSockets and state management.*
- *Integrated YOLO11 and OpenCV for CCTV-based table occupancy and cleanliness monitoring.*
- *Designed a RAG-powered operations assistant and Digital Twin for operational insights and simulations.*
- *Implemented secure access control, financial data validation and audit logging..*

Risk-Aware Multi-Agent Generative AI for Stock & Forex Trading
Python, time-series analysis, multi-agent orchestration, financial RAG, OpenRouter API, SQL

- *Developing a multi-agent AI framework for market prediction, technical analysis, sentiment and risk assessment.*
- *Integrating financial RAG for evidence-based market insights and forex economic event analysis.*
- *Implementing a risk engine with trade validation, leakage-aware backtesting and paper trading.*

EDUCATION

Master of Technology in Artificial Intelligence & Data Science
B. S. Abdur Rahman Crescent Institute of Science and Technology | 2025 – 2027

Bachelor of Technology in Computer Science and Engineering
Christ College of Engineering and Technology, Pondicherry | 2021 – 2025

CERTIFICATIONS & ADDITIONAL INFORMATION

- Certifications: Data Pipeline Engineering & Analytics Specialization, 8 courses (Coursera, Nov 2026) – Verify
- AI-Powered Data Engineering with Snowflake (Edureka via Coursera, Oct 2026) – Verify
- Data Analytics and Databases on AWS (Amazon Web Services via Coursera, Oct 2026) – Verify
- Sales and CRM Overview (Salesforce & Pathstream via Coursera, Oct 2026) – Verify
- Python Course, Ozone Computer Center & Languages: English, Tamil, Urdu
